Applicable LCMC Chapter 16.08 Procedure
Substantive LCMC Chapter 17.16 Single-Family Residential (R-1-5)
Criteria: LCMC Section 17.76.040 Type II Procedure

BACKGROUND

The subject property (site) comprises three parcels. One of the parcels (07-11-22-CD-01400-00 unaddressed) contains a structure that was previously used as a church. The other two parcels (07-11-22-CD-06300-00 addressed as 561 SW 29th St; 07-11-22-CD-06400-00 unaddressed) contain an asphalt parking area. The southwestern portion of the existing structure extends over the property line between 07-11-22-CD-01400-00 and 07-11-22-CD-06400-00. The parcels are owned by the same individual. The property owner seeks to combine the three parcels into one parcel and is choosing to do this using a property line adjustment as the chosen method for combination, rather than a minor re-plat.

ANALYSIS

16.08.160 Applicability

This procedure may be utilized, as an alternative to partition or replatting procedures, under the following circumstances:

- A. The size, shape or configuration of two existing units (lots or parcels) of land, each of which is a legal lot or parcel, is to be modified by the relocation of a common boundary between the parcels; and*

Finding: Each of the tax lots that comprise the site are legal lots/parcels. The property owner seeks to eliminate the common boundary line between the lots/parcels and combine as one parcel. This criterion is met.

- B. An additional unit of land is not created; and*

Finding: The application consists of two legal units of land before the adjustment, and one unit of land after the adjustment. This criterion is met.

- C. Adjustment of the property line shall not cause or increase any nonconformity with any applicable zoning or other requirement of the City of Lincoln City to a greater extent than prior to the adjustment.*

Finding: The site is located in the R-1-5 zone. There are no maximum lot size standards in the R-1-5 zone, with a minimum lot size standard of 5,000 square feet. There are minimum setback requirements of 5 feet for single-story structures and 7 ½ feet for multi-story structures. The current situation present a nonconformity in that the existing structure does not meet the minimum interior side setback requirement. Consolidation of the parcels into one, will eliminate the setback nonconformity completely. No use changes are proposed as part of this application. After the property line adjustment lot consolidation, the entire development will be one parcel. This will bring the development more into conformance with setback and other general LCMC code requirements.

16.08.170 City approval required

Any person desiring to carry out a property line adjustment shall submit to the planning and community development director an application, together with such fee as established by city council resolution. The

Finding: A completed application that was signed by the property owner was submitted, along with the applicable fee. This criterion is met.

- A. *A legal description (by lot and block or by metes and bounds) of the units of land as they exist prior to the proposed property line adjustment, and as they would exist after the adjustment.*

Finding: The applicant provided legal descriptions of the units of land as they currently exist and as proposed. This criterion is met.

- B. *A map (a tax map, survey, or equivalent) depicting the configuration of the units of land prior to and after the proposed adjustment. This information may be depicted on the same map.*

Finding: The application included a map of the site depicting the current and future configuration. As part of final approval, the recorded record of survey map must be submitted reflecting the proposed adjustment. This criterion is or can be met.
