**Procedure:** The application was received on June 20, 2024. The application was deemed complete on June 27, 2024. Criteria:** LCMC Chapter 16.08 Procedure, Article III Property Line Adjustment  
LCMC Chapter 17.16 Single-Unit Residential (R1-5)  
LCMC Section 17.76.040 Type II Procedure

**BACKGROUND**

The subject property (site) comprises two parcels. One of the parcels 07-11-03-DD-05001-00 contains an existing single-family home. The other parcel 07-11-03-DD-05000 is undeveloped and unaddressed.

The site does not contain any bluff erosion hazards, aesthetic resources, floodway, flood hazard areas, or natural resource overlays. There is a mapped potential state wetland, that is not a part of the local wetland inventory, at the rear of the lot. This is not affected by the lot combination.

The site is surrounded by R1-5 zoning developed with single-unit dwellings.

The parcels comprising the site are owned by the same individual. The property owner seeks to combine the two parcels into one parcel and is choosing a property line adjustment application as the chosen method for land use approval. The site has frontage on NW 34<sup>th</sup> Street.

**COMMENTS**

No comments were received.

**ANALYSIS***16.08.160 Applicability*

*This procedure may be utilized, as an alternative to partition or replatting procedures, under the following circumstances:*

- A. The size, shape or configuration of two existing units (lots or parcels) of land, each of which is a legal lot or parcel, is to be modified by the relocation of a common boundary between the parcels; and*

**Finding:** Each of the tax lots that comprise the site are legal lots/parcels. The property owner seeks to eliminate the common boundary line between the lots/parcels and combine as one parcel. This criterion is met.

- B. An additional unit of land is not created; and*

**Finding:** The application consists of two legal units of land before the adjustment, and one unit of land after the adjustment. This criterion is met.

- C. Adjustment of the property line shall not cause or increase any nonconformity with any applicable zoning or other requirement of the City of Lincoln City to a greater extent than prior to the adjustment.*

**Finding:** The site is located in the R1-5 zone. There are no maximum lot size standards in the R1-5 zone, with a minimum lot size standard of 5,000 square feet. There are minimum setback requirements of 5 feet for structures. The existing home on the developed lot appears to meet the required minimum setbacks. Consolidation of the parcels into one will increase the setback to the Eastern property line, all other setbacks will remain the same as before the adjustment. No use changes are proposed as part of this application. After the property line adjustment lot consolidation, the entire development will be one parcel. This will not increase any non-conformities to a greater extent than before the adjustment.

*16.08.170 City approval required*

*Any person desiring to carry out a property line adjustment shall submit to the planning and community development director an application, together with such fee as established by city council resolution. The*

*property line adjustment application shall be upon such form as shall be approved by the planning and community development director, and shall include at least the following information:*

**Finding:** A completed application, signed by the property owner, was submitted along with the applicable fee. This criterion is met.

- A. A legal description (by lot and block or by metes and bounds) of the units of land as they exist prior to the proposed property line adjustment, and as they would exist after the adjustment.*

**Finding:** The applicant provided legal descriptions of the units of land as they currently exist and as proposed. This criterion is met.

- B. A map (a tax map, survey, or equivalent) depicting the configuration of the units of land prior to and after the proposed adjustment. This information may be depicted on the same map.*

**Finding:** The application included a map of the site depicting the current and proposed configuration. This criterion is met.

*Chapter 17.76 Procedures  
17.76.040 Type II procedure*

- A. General Description. Type II procedures apply to administrative permits and applications.   - f. *Statement that a copy of the application, all documents and evidence submitted by or on behalf of the applicant, and applicable criteria are available for inspection at no cost and will be provided at reasonable cost.*

- 4. *Public notices for receipt of complete Type II applications shall include a written comment period of 14 days from the date the notice was mailed for the submission of written comments before the decision is issued.*

**Finding:** The written public notice contained all the information required in LCMC 17.76.040.E.2 through 4.

*F. Review Authority. The review authority for Type II applications shall be the director.*

**Finding:** The Director reviewed the submitted Type II application.

*G. Decision.*

- 1. *Based on the criteria and facts contained within the record, the director shall approve, approve with conditions, or deny the request. The decision shall address all relevant approval criteria and consider written comments submitted before the close of the comment period.*
