### Notice About Towing & Hauling Practices

The Lincoln County Forest Enforcement Program, Lincoln County Sheriff, Abandoned RV Abatement Program, and the US Forest Service have teamed up to clear, clean, and protect remote areas of Lincoln County. The 5-year program has already begun its first phase at multiple sites throughout the County.

As a result of these efforts, the County and US Forest Service have become keenly aware of vehicles and garbage being hauled to public property, private property, and along roadways to be illegally dumped in remote areas. Investigations and potentially prosecutions will be ongoing to bring this illegal dumping in our community to an end.

Illegal dumping represents a significant harm to our community, and any vehicle, boat, or RV under tow that is enroute to an illegal dump site or destination other than a repair shop is a noteworthy event. We request assistance from our community and local companies in **notifying our County Dispatch (541) 265-0777** of events that would be considered a suspicious act or circumstance.

Please contact the Lincoln County Solid Waste if you have questions about these programs. (541) 574-1285 or email [solidwaste@co.lincoln.or.us](mailto:solidwaste@co.lincoln.or.us).
