BACKGROUND

The subject property (site) is identified as Assessor's Map 07-11-27-DC-03400-00 and 03500-00. The site is unaddressed and undeveloped.

The site does not contain any bluff erosion hazards, trails, aesthetic resource, floodway, or flood hazard areas. The site does contain a natural resource overlay zone that was the subject of a Natural Resource Development Variance in November 2022 (VAR 2022-05).

North of the site is developed with houses to the north and northeast and undeveloped to the northwest and is zoned TVC to the north and northeast and RC to the northwest. South of the site is SW 50th St with residential and commercial uses south of the street and zoned TVC. The site is bordered on its east boundary by SW Ebb Ave with residential and commercial uses to the east of SW Ebb Ave, all in the TVC zone. Immediately west of the site is undeveloped in the TVC zone.

The parcels comprising the site are owned by the same entity. The property owner seeks to reconfigure the lots and is choosing a property line adjustment application as the chosen method for land use approval. The site has frontage on SW 50th Street to the South and SW Ebb Ave to the East.

COMMENTS

One Comment was received from the Lincoln County Surveyor. The comment states "*We received the public notice of two property line adjustments (PLA 2024-07 & 2024-08). I just wanted to mention a couple of things. The map numbers listed on the notice are incorrect. All the properties are listed on 07-11-27-CD and they should be 07-11-27-DC. Also just to be clear, these property line adjustments are not going to change the underlying lots. When we work these, we will be showing the old lines on the map as dashed lines. I don't know if that matters to you, but I thought you should know.*" The applicant has provided all of the required data per LCMC 16.08.170. The approval criteria are addressed later in this report. Staff will communicate the comments to the applicant, as future development may be impacted by the formal recording process, if the lot lines are not permanently re-platted.

ANALYSIS

16.08.160 Applicability

This procedure may be utilized, as an alternative to partition or replatting procedures, under the following circumstances:

- A. The size, shape or configuration of two existing units (lots or parcels) of land, each of which is a legal lot or parcel, is to be modified by the relocation of a common boundary between the parcels; and*

Finding: Each of the tax lots that comprise the site are legal lots/parcels. The property owner seeks to reconfigure the lots to front on SW Ebb Avenue. This criterion is met.

- B. An additional unit of land is not created; and*

Finding: The application consists of two legal units of land before the adjustment and two legal units of land after the adjustment. This criterion is met.

- C. Adjustment of the property line shall not cause or increase any nonconformity with any applicable zoning or other requirement of the City of Lincoln City to a greater extent than prior to the adjustment.*

Finding: The site is located in the TVC zone. There are no maximum lot size standards in the TVC zone. The minimum lot area for multi-unit dwellings is 2,500 square feet per LCMC 17.20.050, and 5,000 square feet for single-family homes per LCMC 17.16.020. The minimum setback is 0' and the maximum setback is 10'. The existing lots and resulting lots are all at least 5,000 square feet.

Reconfiguring the parcels will not cause any nonconformity with setback and other general LCMC code requirements.

16.08.170 City approval required

Any person desiring to carry out a property line adjustment shall submit to the planning and community development director an application, together with such fee as established by city council resolution. The property line adjustment application shall be upon such form as shall be approved by the planning and community development director, and shall include at least the following information:

Finding: A completed application that was signed by the property owner was submitted, along with the applicable fee. This criterion is met.

- A. A legal description (by lot and block or by metes and bounds) of the units of land as they exist prior to the proposed property line adjustment, and as they would exist after the adjustment.*

Finding: The applicant provided legal descriptions of the units of land as they currently exist and as proposed. This criterion is met.

- B. A map (a tax map, survey, or equivalent) depicting the configuration of the units of land prior to and after the proposed adjustment. This information may be depicted on the same map.*

Finding: The application included a map of the site depicting the current and proposed configuration. This criterion is met.

 - e. The name of a department staff member to contact and the telephone number where additional information may be obtained; and*
 - f. Statement that a copy of the application, all documents and evidence submitted by or on behalf of the applicant, and applicable criteria are available for inspection at no cost and will be provided at reasonable cost.**
- 3. The failure of a property owner to receive notice does not invalidate the land use action if the notice was sent.*

Finding: The written public notice contained all the information required in LCMC 17.76.040.E.2 through 4.

Finding: The Director reviewed the submitted Type II application.
